FOR IMMEDIATE RELEASE

## **Micro Key Solutions Releases New Software Version with New Branding at ESX 2013**

Kissimmee, FL - Micro Key Solutions, an industry leader in Accounting, Service and Central Station Automation Software released the latest version of their Millennium Series Software at ESX 2013 in June. The company releases one to two major versions per year, along with numerous updates throughout the year.

This year, the company has also released the new version with some unique branding. This release will be known as ***Millennium Series Software Version 34: Neo***.

The branding theme is based on very strong, reliable, and commanding movie hero characters. Each version of the Millennium Series Software evolves in a profound way, which is why the branding of the versions made sense.

***Version 34: Neo*** contains over 400 new updates and enhancement including for their Accounting, Service and Central Station Automation product lines including:

- New Financial Reporting
- Real-Time E-payment
- WebView
- Automated Action Plans
- CSID Generator
- Action Plan Signals
- New Form Style

- Smart Scheduling
- New Error Reporting
- And Much More!

“Our product has received a makeover with the numerous new features in both the Millennium Management and Central Station software. We encourage everyone to take a new look at Micro Key” said Micro Key President, Victoria Ferro.
